Heavy Duty Dual Side Drive Belts Move Inward to Automatically Center Box

New "Piranha" Tape Head Features An Easy Thread Design with Optimizer Arm

PP-556AU CARTON SEALER

The operator simply packs the corrugated carton closes the top flaps and feeds the box into the machine and activates the lower limit switch, the top drive belts move downward and the 2 side drive belts move inward to center the box, the drive belts turn on and drive the box through the machine. The PP-556AU applies a single tape strip to both the top and bottom of the case simultaneously. This 4 belt drive design is a heavy duty versatile machine designed for dependable performance and easy operation. The PP-556AU will easily adjust in seconds to process a different size carton. Excellent for all types of boxes. The PP-556AU will process up to 20 cartons per minute (depending on box size).
